

Dear Parent/Guardian

If your child has not received their HPV vaccinations, you can still arrange this.

HPV is a common virus that can cause:

- Cervical cancer
- Some mouth and throat cancers
- Some anal and genital cancers
- Genital warts

Allowing your child to have the HPV vaccine will protect them against some of the diseases caused by the virus. You can still give consent for your child to receive this vaccine.

Giving consent is quick and easy.

Please follow the link below to give consent:

[Vaccination Consent \(hdftsais.co.uk\)](http://hdftsais.co.uk)

When prompted you will need to enter the following school code:

School Code: **HD143146**

Once you have completed the consent form you will receive an email inviting you to book a clinic appointment.

If for any reason you are unable to complete the online consent form, please contact the immunisation team for help:

Email: hdft.sais@nhs.net

Tel: 0300 003 2554

Further information about the vaccine can be found at www.nhs.uk [Human papillomavirus \(HPV\) - NHS](http://www.nhs.uk)

Yours sincerely
Helen Harvey
